#### **Endless time**

(A poem by Rabindranath Tagore)

Time is endless in thy hands "My lord".... There is none to count thy minutes. Day and night pass and ages bloom, and fade like flowers. Thou knowest how to wait. Thy sanctuaries follow each other perfecting a small wild flower. We have no time to lose, and having no time we must scramble for a chance. We are too poor to be late. And thus it is that time goes by while I give it to every querulous man, Who claims it. And thine altar is empty of all Offering to the last. At the end of the day I hasten in fear, lest thy gate be shut; but I find that yet there is time......

#### **A Smile**

Smile is quite a funny thing, It wrinkles up your face. And when it's gone, you will never find, It's a secret hiding place. But far more wonderful it is, To see what smiles can do, You smile at one, He smiles at you. And so one smile makes two.

#### Sing new songs

Even after all those worst ever nights, The morning did come with the same light, Just wake up and start over again, sing new songs enter them into insane.

Don't believe in stories you have been told, Pack your bag and make your own way, Try that out and don't ever sleep, Unfold your destiny with your own thoughts.

What you have dreamt about, Is a wish that is in your mind, Don't just kill it and turn yourself into a blind.

If you have seen it, then you can get it, If you can get it, then you can enjoy it.

Peer's influence everyone's life, even if

someone doesn't realise it, people learn from them and they learn from their Peers.

we spend time with. They pressurise an individual to do something to appear acceptable. Among them this pressure

can be positive or negative depending on

Most Important: Peer pressure plays an important role in anyone's development and growing up, because peer's give motivation to do

something. Peers can also provide healthy competition. They can

influence a person in positive or negative ways, because peers are

everywhere at home, at school, at college and at office. Nobody is

immune to peer pressure; it's up to the individual to make the best out of the situation. Peer pressure will always remain, but it's up to us what we do with it and how we let it affect us and how we navigate

When these Peers, pressure a person into doing something to appear similar or acceptable it's Peer pressure. Peers are people who are our friends or family members or people

#### Two levels of success

A man can be called successful when he achieves his derived goals.

A man can be successful when he is hardworking and dedicated.

For some people, being successful is being rich. But being successful is a lot more than being rich. It is comparable to being successful.

Dedication and hard work are the two mantras to be successful.

With confidence, not giving up, hard work, dedication and without fear;

all can achieve success easily. The first level of success will be too tough,

but after it all levels will be easy. You only have to cross the first level. So.....

Be confident, Be fearless, Be dedicated and Be successful.
